Name: Sophie ADAMS (11D)

---

Subject	Target	Current	GO 4 Schools: Current model	Attitude to learning	Comment and curricular targets
Combined Science sample	6/6	6/6	On target	n/a	Sophie is on track to achieve her target in science and has done particularly well in the Biology units of this course. She does particularly well in the describe and explain questions as she has excellent recall of key facts, but needs to practice more 'suggest' questions. Sophie is confident at the practical element of this course and is able to work with accuracy and precision to produce the desired outcomes. P PANCUTT
English Language sample	5	6	Above target	2	Sophie is currently working above her target grade in English language but to ensure she reaches her full potential she needs to practice her comparative writing as this is her weakest area. She has a flair for public speaking and really excelled in her recent speaking and listening presentation. Her classwork is well presented, and as she takes time on her planning, is well structured. D DEVOOGHT-JOHNSON
English Literature sample	5	4 +	Below target	2	Sophie is currently working at just below her target grade in English literature as her poetry work is holding her back. Before the exams she will need to complete the online practice questions for me to provide her with structured feedback. Overall Sophie has been a pleasure to have in the class as she is a polite and conscientious student. M MCRAE
French sample	4	4	On target	2	Sophie has shown a real positive engagement with the subject so far this year. She is motivated and has a real desire to achieve. She is very clear about her own ambitions and has done everything possible to make these happen. She always makes the most of all of the learning opportunities provided in the lesson, and also through homework, which is always completed to the highest standard. A ALTAPARMAKOV
Geography sample	5	5 +	On target	2	Sophie has been a delight to have in my geography class as she is a conscientious student who is enthusiastic about the subject. To ensure success in the exams Sophie needs to practice working with sources as her recall of key facts is excellent. I wish her every success in the summer and I hope she considers studying Geography at A level. O O'CONNELL
Maths sample	5	4	Below target	2	Sophie is currently working below target in maths, but I am sure with focused revision she will be able to turn this around before the exams. She is aware of her own strengths and weaknesses and has been using the online revision materials and tests to practice topics she struggles with most. Homework is also completed on time and it is clear she has spent the recommended time on the tasks as calculations are well structured and clearly demonstrate the steps taken to reach her answer. S GREEN
