Course Details:

This session is suitable for both new and established users of GO 4 Schools who would like to extend the application of markbooks to capture ‘live’ assessment data or build confidence in the use of markbooks across their school.

Key aspects covered:

• Overview of Markbooks
• Creating markbooks - Simple markbooks for summative grades & full markbooks for collecting assessment data
• Copying an existing markbook and amending it
• Combining assessments
• Using internal and assessment grading schemes
• Recording report attributes in markbooks
• Higher and Foundation
• Scaling - Simple & Advanced
• Using markbooks for recording extra-curricular activities.

The course will support recording assessment data effectively to track live data rather than data drops, effective markbook set up can support teacher workload and inform school leaders accurately about student learning patterns.

Available sessions:

11th and 12th June 2020. 12:00—14:00
22nd and 23rd June 2020. 12:00—14:00

This course is specifically for:

Data Managers or personnel with school manager or curriculum leader access in GO 4 Schools for their establishment.

GO 4 Schools is a powerful, joined-up, easy-to-use, online system that allows your staff, students and parents to access the information they need – 24/7 – to work together to improve student outcomes.

GO 4 Schools is unique in the way live current grades are calculated within the Markbook module to measure against school target data. An MIS feed into GO 4 Schools automatically picks up student demographic data e.g. pupil premium, SEN, etc. to enable further filtering of your data to identify key focus groups for intervention.

When linked to attendance and behaviour data this is a very powerful tool to identify and make strategic decisions for school improvement. GO 4 Schools’ holistic approach is designed to give you a pathway to get from where you are now to where you want to be. Our complete training offer supports your staff development and confidence in the effective use of school data.
