Analysing Data for Data Managers

Costs: £120 (first delegate) £90 (second delegate)*

[See reverse for further booking details](#)

Course Details:

- ⇒ Do you support school leaders in the analysis of school attainment data?
- ⇒ Would you like to improve your knowledge of using analysis tools in GO 4 Schools?
- ⇒ Do you need to understand how to track key focus groups more effectively?

If the answer is YES to the above then the Analysing data training course is ideal for you. Using the data analysis tools in GO 4 Schools will enable you to disseminate this to staff in your school to embed a more effective use of school data to inform interventions and contribute to improving student outcomes.

The training session will focus on:

- Student attributes – set up and using for analysis
- Key statistics, subject statistics overview
- Using subject ribbons
- Data Explorers for forensic analysis
- Using charts, auto charts, new ribbons
- Generating snapshots to review progress over time
- Using the school dashboard to view trends

Available sessions:

Wednesday 5th December 12:30pm—16:30pm

Thursday 11th July 10:00am—14:00pm

This course is specifically for:

Data managers

GO 4 Schools is a powerful, joined-up, easy-to-use, online system that allows your staff, students and parents to access the information they need – 24/7 – to work together to improve student outcomes.

GO 4 Schools is unique in the way live current grades are calculated within the Markbook module to measure against school target data. A MIS feed into GO 4 Schools automatically picks up student demographic data e.g. pupil premium, SEN, etc. to enable further filtering of your data to identify key focus groups for intervention.

When linked to attendance and behaviour data this is a very powerful tool to identify and make strategic decisions for school improvement. GO 4 Schools’ holistic approach is designed to give you a pathway to get from where you are now to where you want to be. Our complete training offer supports your staff development and confidence in the effective use of school data.
