Supporting schools in
the use of new
functionality in
GO 4 Schools.

PRACTICAL

How to set up and use
School Grading
Schemes and Internal
Assessment Schemes to
enable tracking of the
new curriculum

STRATEGIC

Develop your school's
effective use of data in
the classroom to impact
on student learning

TAILORED

Training can be tailored
to your school's
priorities and
requirements

Continuing Professional Development

Life after Levels

Developing use of school assessment and grading schemes

The **GO 4 Schools** Education Services team is offering training during the summer term on how to use **GO 4 Schools** for tracking without National Curriculum Levels.

The training is suitable for schools wanting to discuss their options for tracking students in **GO 4 Schools** and includes:

- An overview of common approaches, including the mastery scheme, new GCSE 1-9 based schemes or A*-G like schemes.
- Setting up and assigning points to a school-defined grading scheme to enable progress tracking.
- Setting up assessment grading schemes specific to subject-based learning.
- Extended use of school-based schemes applied to markbooks and editing attached grading schemes.
- Tracking progress using transition matrices and statistics pages.
- Analysis of assessment data via charts and explorers.
- New features update, including formative assessment.
- Inclusive health check of your school's set-up and implementation of GO 4 Schools functionality.
- Refresher training on uploading data to GO 4 Schools including: grade types, student attributes and marks.
- Additional training for schools who have purchased new modules.

Training is for a 2½ hour session at a cost of £400 + VAT

Training time may be split between your core data group, your middle leaders or wider staff CPD. We recommend that group numbers are kept small to enable more effective delivery of training. If you have other training requirements such as refresher training or new staff induction we also offer a range of training and consultancy to support schools.

How do we book?

To book and for further information contact: enquiries@go4schools.com or telephone **01223 967556 (option 1)**.
