

Behaviour

A training course for senior leaders with responsibility for a school's behaviour policy. Discuss your set up and use of the GO 4 Schools behaviour module to improve the effectiveness and review of behaviour data across the school at all levels.

Further develop your skills in using behaviour analysis tools alongside other key information.

Course Details:

The course has been developed for schools with a subscription to the GO 4 Schools behaviour module. Through discussion with other delegates and with one of our Education services team we aim to enable you to identify high frequency—low level behaviour events and trends. Managing higher level behaviours through detention management and effective behaviour record keeping. Further investigation of behaviour over time across key focus group and the curriculum will support effective monitoring and the impact of interventions that improve student outcomes.

Key aspects covered:

- Classifying and setting up behaviour events to reflect your school's behaviour policy
- Setting up consistent responses by staff to improve sanctions and rewards
- Using the behaviour explorer to view details of events by date range, tutor group, year group, subject, teacher etc.
- View in-group and student variations in behaviour events alongside assessment and attendance data
- Use behaviour charts to analyse patterns and monitor impact of interventions and focus groups
- Set up of detention sessions, the allocation of students to detentions and notifying parents
- Set up and manage behaviour email notifications for teachers
- Strategies for communicating behaviour data to parents and students

Time will be given for delegates to discuss and share ideas of how they are using GO 4 Schools. We will also look at the wider aspects of tracking school behaviour data alongside assessment and attendance.

DATES AND TIMES

We are running courses as online sessions using Microsoft Teams until January 2021.

In-house courses will be reviewed to comply to the most current guidance regarding COVID-19.
